

GESTURE SPOT 500

120W LED Moving Head Spotlight with Motorized Focus

Motorized focus via DMX or directly from the menu adds up to the utmost in versatility and performance. Prism rotation and indexing hits your perfect position every time while a removable gobo door makes replacing gobos easy, without requiring any extra tools. Four slave modes create complex auto programs without a DMX controller and the full color menu conveys all the essential information quickly and clearly.

- 120W LED
- Replaceable gobos without any extra tools through removable gobo door
- 4 slave modes create complex auto programs without a DMX controller
- Manual selections enable pinspotting a cake or projecting a gobo without DMX controller
- Full-color menu: Easy-to-read, detailed menu system
- ¼-turn omega mounting bracket included faster setup between shows
- Power Linking enables faster setup with fewer cables
